- KPI Design & Executive Reporting
- Fraud Prevention & Chargeback Analytics
- Payments & Acquiring Operations (VISA, Mastercard, AMEX)
- Agile / Scrum Methodologies
- Process Optimization (AS-IS / TO-BE)
- Product & Portfolio Analytics
- Regional / Multi-country Operations
- Stakeholder Management (Business & Tech)

PROFESSIONAL SUMMARY

I am a Senior Business & Data Analyst with over 10 years of experience bridging business strategy, analytics, and technology within banking and fintech environments across LATAM.

I specialize in translating complex business needs into scalable, data-driven solutions that improve operational efficiency, reduce fraud exposure, and increase product performance. I have extensive experience working with global payment networks (VISA, Mastercard, AMEX), leading cross-functional regional initiatives, and influencing executive decision-making through advanced analytics and storytelling.

My profile combines strategic thinking, strong analytical capabilities, and leadership in multicultural and remote environments.

PROFESSIONAL EXPERIENCE

Data Specialist | BAC LATAM | 2023 – Present

- Act as strategic liaison between business, analytics, and technology teams across 5+ Central American countries.
- Lead regional analytics initiatives improving visibility of product and operational performance.

- Design and implement executive dashboards in Power BI and Tableau to track KPIs and strategic metrics in real time.
- Analyze large transactional datasets (millions of records monthly) to identify revenue growth and cost reduction opportunities.
- Improve process efficiency by 20–25% through data-driven automation and optimization initiatives.
- Translate business needs into functional requirements, KPIs, and analytical frameworks used by senior leadership.
- Facilitate cross-functional workshops to align priorities and reduce delivery rework by up to 20%.

Fraud Prevention & Chargeback Management | BAC LATAM | 2018 – 2023

- Lead regional fraud analytics and dispute management initiatives impacting multiple countries and portfolios.
- Analyze fraud trends and root causes, contributing to year-over-year reduction in fraud losses.
- Define business and functional requirements for automation tools, dashboards, and AI-driven solutions.
- Serve as Project Manager / Product Owner for regional analytics initiatives.
- Implement automation strategies that improved fraud workflow efficiency by 30%+.
- Collaborate directly with VISA, Mastercard, and AMEX to align KPIs and performance standards.

Acquiring Executive | BAC Credomatic | 2016 – 2018

- Analyze merchant acquiring operations and portfolio performance.
- Improve operational workflows through process optimization initiatives.
- Coordinate with internal teams to ensure compliance with regulatory and business requirements.
- Support reporting, portfolio monitoring, and performance tracking for merchant accounts.
- Enhance operational efficiency through data-driven analysis and continuous improvement practices.
